Battery Replacement

For best results, we recommend replacing the batteries that came with this toy with six, new "AA" (LR6) alkaline batteries.

- Locate the battery compartments on the bottom of each foot.
- Loosen the screw in each battery compartment door with a Phillips screwdriver. Remove each battery compartment door. Remove the exhausted batteries and dispose of them properly.
- Insert six, new "AA" (LR6) **alkaline** batteries.
- Replace each battery compartment door and tighten each screw. Do not over-tighten.
- If the toy begins to operate erratically you may need to reset the electronics. Slide the power/volume switch on the bottom of the toy off and then back on.
- When sounds or motion become faint or stop, it's time for an adult to change the batteries!

- Protect the environment by not disposing of this product with household waste (2002/96/EC). Check your local authority for recycling advice and facilities.

Battery Safety Information

In exceptional circumstances, batteries may leak fluids that can cause a chemical burn injury or ruin your product. To avoid battery leakage:

- Do not mix old and new batteries or batteries of different types: alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium).
- Insert batteries as indicated inside the battery compartment.
- Remove batteries during long periods of non-use. Always remove exhausted batteries from the product. Dispose of batteries safely. Do not dispose of this product in a fire. The batteries inside may explode or leak.
- Never short-circuit the battery terminals.
- Use only batteries of the same or equivalent type, as recommended.
- Do not charge non-rechargeable batteries.
- Remove rechargeable batteries from the product before charging.
- If removable, rechargeable batteries are used, they are only to be charged under adult supervision.
